

§ 1000.319

24 CFR Ch. IX (4–1–12 Edition)

§ 1000.319 What would happen if a recipient misreports or fails to correct Formula Current Assisted Stock (FCAS) information on the Formula Response Form?

(a) A recipient is responsible for verifying and reporting changes to their Formula Current Assisted Stock (FCAS) on the Formula Response Form to ensure that data used for the IHBG Formula are accurate (see § 1000.315). Reporting shall be completed in accordance with requirements in this Subpart D and the Formula Response Form.

(b) If a recipient receives an overpayment of funds because it failed to report such changes on the Formula Response Form in a timely manner, the recipient shall be required to repay the funds within 5 fiscal years. HUD shall subsequently distribute the funds to all Indian tribes in accordance with the next IHBG Formula allocation.

(c) A recipient will not be provided back funding for any units that the recipient failed to report on the Formula Response Form in a timely manner.

(d) HUD shall have 3 years from the date a Formula Response Form is sent out to take action against any recipient that fails to correct or make appropriate changes on that Formula Response Form. Review of FCAS will be accomplished by HUD as a component of A-133 audits, routine monitoring, FCAS target monitoring, or other reviews.

[72 FR 20025, Apr. 20, 2007]

§ 1000.320 How is Formula Current Assisted Stock adjusted for local area costs?

There are two adjustment factors that are used to adjust the allocation of funds for the Current Assisted Stock portion of the formula. They are:

(a) Operating Subsidy as adjusted by the greater of the AEL factor or FMR factor (AELFMR); and

(b) Modernization as adjusted by TDC.

§ 1000.322 Are IHA financed units included in the determination of Formula Current Assisted Stock?

No. If these units are not owned or operated at the time (September 30, 1997) pursuant to an ACC then they are

not included in the determination of Formula Current Assisted Stock.

§ 1000.324 How is the need component developed?

After determining the FCAS allocation, remaining funds are allocated by need component. The need component consists of seven criteria. They are:

(a) American Indian and Alaskan Native (AIAN) Households with housing cost burden greater than 50 percent of formula annual income weighted at 22 percent;

(b) AIAN Households which are overcrowded or without kitchen or plumbing weighted at 25 percent;

(c) Housing Shortage which is the number of AIAN households with an annual income less than or equal to 80 percent of formula median income reduced by the combination of current assisted stock and units developed under NAHASDA weighted at 15 percent;

(d) AIAN households with annual income less than or equal to 30 percent of formula median income weighted at 13 percent;

(e) AIAN households with annual income between 30 percent and 50 percent of formula median income weighted at 7 percent;

(f) AIAN households with annual income between 50 percent and 80 percent of formula median income weighted at 7 percent;

(g) AIAN persons weighted at 11 percent.

§ 1000.325 How is the need component adjusted for local area costs?

The need component is adjusted by the TDC.

§ 1000.326 What if a formula area is served by more than one Indian tribe?

(a) If an Indian tribe's formula area overlaps with the formula area of one or more other Indian tribes, the funds allocated to that Indian tribe for the geographic area in which the formula areas overlap will be divided based on:

(1) The Indian tribe's proportional share of the population in the overlapping geographic area; and

(2) The Indian tribe's commitment to serve that proportional share of the population in such geographic area.

(3) In cases where a State recognized Indian tribe's formula area overlaps with a Federally recognized Indian tribe, the Federally recognized Indian tribe receives the allocation for the overlapping area.

(b) Tribal membership in the geographic area (not to include dually enrolled tribal members) will be based on data that all Indian tribes involved agree to use. Suggested data sources include tribal enrollment lists, the U.S. Census, Indian Health Service User Data, and Bureau of Indian Affairs data.

(c) If the Indian tribes involved cannot agree on what data source to use, HUD will make the decision on what data will be used to divide the funds between the Indian tribes by August 1.

[63 FR 12349, Mar. 12, 1998, as amended at 72 FR 20025, Apr. 20, 2007]

§ 1000.327 What is the order of preference for allocating the IHBG formula needs data for Indian tribes in Alaska not located on reservations due to the unique circumstances in Alaska?

(a) Data in areas without reservations. The data on population and housing within an Alaska Native Village is credited to the Alaska Native Village. Accordingly, the village corporation for the Alaska Native Village has no needs data and no formula allocation. The data on population and housing outside the Alaska Native Village is credited to the regional Indian tribe, and if there is no regional Indian tribe, the data will be credited to the regional corporation.

(b) Deadline for notification on whether an IHP will be submitted. By September 15 of each year, each Indian tribe in Alaska not located on a reservation, including each Alaska Native village, regional Indian tribe, and regional corporation, or its TDHE must notify HUD in writing whether it or its TDHE intends to submit an IHP. If an Alaska Native village notifies HUD that it does not intend either to submit an IHP or to designate a TDHE to do so, or if HUD receives no response from the Alaska Native village or its TDHE,

the formula data which would have been credited to the Alaska Native village will be credited to the regional Indian tribe, or if there is no regional Indian tribe, to the regional corporation.

§ 1000.328 What is the minimum amount that an Indian tribe may receive under the need component of the formula?

(a) Subject to the eligibility criteria described in paragraph (b) of this section, the minimum allocation in any fiscal year to an Indian tribe under the need component of the IHBG Formula shall equal 0.007826 percent of the available appropriations for that fiscal year after set asides.

(b) To be eligible for the minimum allocation described in paragraph (a) of this section, an Indian tribe must:

(1) Receive less than \$200,000 under the FCAS component of the IHBG Formula for the fiscal year; and

(2) Demonstrate the presence of any households at or below 80 percent of median income.

[72 FR 20025, Apr. 20, 2007]

§ 1000.330 What are the data sources for the need variables?

(a) The sources of data for the need variables shall be data available that is collected in a uniform manner that can be confirmed and verified for all AIAN households and persons living in an identified area. Initially, the data used are U.S. Decennial Census data.

(b) The data for the need variables shall be adjusted annually beginning the year after the need data is collected, using Indian Health Service projections based upon birth and death rate data as provided by the National Center for Health Statistics.

(c) Indian tribes may challenge the data described in paragraphs (a) and (b) of this section pursuant to § 1000.336.

[63 FR 12349, Mar. 12, 1998, as amended at 72 FR 20025, Apr. 20, 2007]

§ 1000.332 Will data used by HUD to determine an Indian tribe's or TDHE's formula allocation be provided to the Indian tribe or TDHE before the allocation?

Yes. HUD shall provide notice to the Indian tribe or TDHE of the data to be
